Dear Fellow CCGS Father,

Re: Alice Springs POOH father & son pilgrimage

My son and I joined POOH father and son pilgrimage to Alice Springs in 2009. It proved to be one of the most rewarding and enjoyable 10 days that we have spent together on many levels.

To have 10 days with your son sharing new experiences, assisting truly incredible children & staff at Yiperinya and working together as a close-knit team only tightened the existing bond between us. It not only enhanced the level of respect between us but we also developed a strong empathy & appreciation for the challenges faced by our indigenous fellow Australians. We were fortunate to experience first hand the depth of their wonderful culture, which few of us truly understand. The time spent together helping others is gift of time that not many fathers & their sons get to enjoy in their busy lives.

Combined with the strong friendships that develop with your fellow pilgrimage fathers and sons, many of whom you have never met before but in some cases will remain life long friends; the Alice Springs POOH is certainly a journey of discovery for both father and son in many areas and well worth the commitment of time in our busy lives.

Yours Sincerely

Dr Keiran Wulff
Managing Director
