The 2011 pilgrimage of hope to Alice Springs was a great life experience. I recommend attending the 2012 pilgrimage of hope to any father and son (in the year 8 and 9 groups) at Christchurch Grammar.

The preparation, organisation and effort undertaken by Brother James and the parent and student tour leaders was excellent and served to make our travels extremely enjoyable.

The highlights of many positive experiences were

- The creation of a very safe psychological vehicle for all those who attended to communicate in a meaningful and effective way to their respective fathers/sons to enhance this relationship
- The process of having meaningful, non time/school/sport pressured contact with my son
- Meeting the aboriginal staff and students of Yipirinya, enjoying their company, learning about their lifestyle, their beliefs and their culture
- Giving time and effort, or not, depending on how the day panned out (i.e. living in the moment)
- Waking up in the desert near Uluru at about 2 degrees at 6 a.m. in darkness with swag flap over my head, very warm, looking out through a small gap in my swag at a million stars
- Meeting new people from Christchurch Grammar and getting to know them in a relaxed atmosphere
- Running a hearts and ears clinic for the children at the school with my medical colleague

If you are thinking of attending then do. If you aren't then do!

Cameron Gent
